## **DATATEL AND NUVENTIVE SIGN PARTNERSHIP AGREEMENT**

Colleges and Universities will have Enhanced Tools for Strategic Planning

**WASHINGTON, DC – March 14, 2005** – Datatel, Inc., a leading provider of technology solutions and professional services for higher education, and Nuventive, a leader in electronic portfolio and assessment planning and management software, today announced that they have joined in a partnership agreement. This agreement will help provide higher education institutions with a strong student learning and evaluation solution and a comprehensive institutional planning and assessment system.

The announcement was made at the Datatel Users' Group Conference in Washington, DC – an annual gathering of over 2,000 Datatel clients.

“Clients will have access to iWebfolio and TracDat through this partnership and will be able to better manage their measurement goals,” said Kyran Kennedy, Datatel director of Partner Programs. “These tools will also assist institutions with the often complicated accreditation process.”

With Nuventive's iWebfolio, students can build multiple portfolios, store and relate work products, dynamically share portfolios, interact with faculty, and maintain a life-long record of accomplishments. Faculty can review, rate, and provide feedback to students on their portfolio(s), develop and manage portfolio templates, and extract assessment data for program and department assessment initiatives.

Nuventive's TracDat offers administrators and faculty an easy-to-use, comprehensive approach that helps them master assessment tasks and institute uniform reporting that simplifies data collection, review, management, utilization, planning, and follow-up at all levels.

“We are very pleased to join with Datatel in offering Nuventive's institutional planning and assessment solution and electronic portfolio system to Datatel clients,” said Nuventive's CEO David Raney, M.D. “We look forward to working together with Datatel to improve learning outcomes.”

### **About Datatel, Inc.**

Datatel, an employee-owned company, is a leading provider of fully integrated enterprise information management solutions for higher education. Headquartered in Fairfax, VA, the company has over 650 client institutions throughout North America. For more than 25 years, Datatel has exclusively focused on meeting the needs of colleges and

universities, helping institutions operate more efficiently so they may better serve their constituents. For more information, please visit [www.datatel.com](http://www.datatel.com).
